

Available Technology at Pickens High

Pickens High School is fortunate to have an abundance of technology tools to assist students and faculty in learning.

- The School District of Pickens County is a One-to-One district. Students at PHS have a Chromebook that they keep for the school year. Click [here](#) for more info on our Tech-It-Home program.
- Seventy-five classrooms equipped with Eno Boards and Epson Interactive Projectors.
- We have 4 business labs with a total of 120 computers
- Our media center has 30 computers for student use.
- The media center has digital cameras, camcorders, and digital presenters for teacher checkout.

Additionally, all Pickens High Math teachers have classroom sets of TI graphing calculators for student use during class.
